

ASSEMBLY OVERVIEW

Assemble the frame on a flat level surface.

8'x8' Commercial Zone Frame

You may need to use a rubber mallet to fully seat some joints.

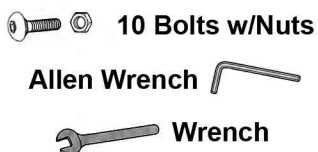

IMPORTANT:

Please read all directions thoroughly before assembly.

PARTS LIST

1	Upper Elbows	2
2	Single Reduced End	4
3	Double Reduced End	1
4	Double Reduced End	1
5	Ground Leg Supports	2

HARDWARE AND TOOLS

1

Unpack and inspect.

Lay out all frame components and confirm that each piece matches the corresponding number in the exploded diagram.

2

Assemble the frame.

Begin assembly from the ground up. Fully seat all pipe joints before installing bolts and nuts.

3

Secure all joints.

After the frame is fully assembled, thread a bolt through both pipe holes at each connection point. Secure bolts with nuts.

4

Install the net.

Slide the net over the frame like a pillowcase. Pull the bottom rope tight and securely tie it in place.
